

A project for the development of a railway junction in Serbia worth 102 million euros is starting

The Ministry of Finance has issued a call for expressions of interest for consulting services for the restructuring of the company Serbia Cargo.

The scope of work includes diagnostic work, forecast of railway freight towards full commercial orientation of the company and operational independence, as well as development of business strategy and five-year business plan of the company.

The call is open until August 16 at 12 o'clock.

The restructuring of the company Serbia Cargo will be financed from a loan worth 102 million euros that Serbia received from the World Bank and the French Development Agency, for the development of the railway junction in Serbia, eKapija reports.
