Notes:

Evolving the Techno-Economic Realities of Energy Storage Systems

ACI's 3rd Annual Energy Storage summit will once again bring together senior executives from the utilities industry, TSOs, DNOs, EES owners, developers as well as manufacturers to conduct a thorough cost analysis and comparison of various EES systems and their roles in the business strategies & blueprints of grid operators.

The conference will have a heavy focus on case study examples of large scale RES projects across the globe, discussing how they overcame economic, political and technological challenges to improve penetration of intermittent RES.

EXCLUSIVE SITE VISIT

EDF's Castillon Dam located in Demandolx, by Castellane, in the Alpes-de-Haute-Provence - Tuesday 26th February 2013

During the afternoon of Tuesday 26th February 2012 a limited number of conference attendees will have the opportunity to attend an exclusive site visit
